...

Dante, we will need to accelerate our editorial review so that we can get this back to BLM next week. I will do whatever I have to do to make it happen, but first, we need EPA HQ to respond. Then, we can estimate our turnaround time. Keep us posted on their response.

Thanks,

Jeryl R. Gardner, P.E., C.E.M.

Ugh, not yet. I just sent them an inquiry.

Jeryl and I were figuring we would work next week on incorporating their comments, if we receive them today, and then get it into final form the week thereafter.

Dante Rodriguez

Subject: OU-8 ROD Final

Hi Dante,

First I'd like to know if EPA has officially completed their headquarters review of the ROD. If so, when can we expect a clean final version of the ROD, so I can start the concurrence routing through BLM to DOI. It looks like there is mounting pressure to have an approved ROD by July. NDEP is stating they need an approved ROD before ARC will sign the deferral agreement. In order to have any chance at expediting the routing to get concurrence by DOI's Assistant Secretary of Policy, Management, and Budget, I need a clean version by the end of next week to start the process. BLM will do what we can to expedite the process, but having it done by July is going to be tough. Hope to see you in Yerington next week.

Thanks,

Dave Davis, Geologist
